**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I use a competitive provider for internet service as AT&T and Verizon/Comcast charge too much money for low quality internet. More competition is better, as it increases quality and keeps prices competitive for customers. We use fiber internet today to work from home, connect with loved ones via video calls, and for entertainment. Please ensure there is continued broadband competition by keeping access to unbundled network elements like critical last-mile copper and inter-city backhaul; the very technology that allowed broadband competition to grow, expand fiber deployment, backhaul those deployments, and compete.

Best,

Matthew Biggerstaff
